

Moving Mountains

Alleviating poverty and promoting gender equality through education.

“
It was the most
important kind of
gift that you gave
to me. What you
gave me is not just
money, but love.”

~Lu

Providing scholarships to exceptionally bright young girls in rural China.

These girls understood the importance of education at a young age. Despite challenging circumstances they have proven themselves with top scores on the rigorous entrance exams and they have been accepted into **the best high school** in their county. They've done the work and they have what they need to succeed, but there is one last hurdle:

**Their average family income is \$266 a year.
The cost of high school tuition is \$300 a year.***

One-to-One Sponsorship Programs

We are fortunate to see the effects of our work first hand. In an effort to share this incredible feeling, we've developed a special one-to-one sponsorship program. If you or your group is able to raise the funds to pay for a full year's tuition, we will match you with the actual student who has benefited from your donation. A girl with a name, a face, a family and now, a whole new life!

Letter Exchange

With the help of volunteer translators from the Hong Kong International School, not only will you receive a picture, a profile and a letter from the girl you have sponsored, but you will also be able to exchange letters with her. Through these special letters you can learn about the powerful effect of your donation.

"Now, I am back at school. I believe that if I work hard, I can finally be something and change my life forever. I think I am the luckiest girl among the 1.3 billion Chinese." ~ Tao

Our Organization

Moving Mountains for Education, Inc. is a 501(c)(3) organization based in the U.S. It was created by a group of adoptive families with daughters from China. Moving Mountains is deeply committed to keeping our overhead low. For the 2007-2008 school year, non-program expenses amounted to less than 1% of revenues. Our goal is to save every dollar possible for the education of these exceptional young girls.

Together, we can move mountains!
